EXAMINER'S AMENDMENT

Election/Restrictions

Applicant's election of claims 11-12 in the reply filed on July 27, 2005 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 13-17 are cancelled.

This application is in condition for allowance except for the presence of claims 13-17 non-elected without traverse. Accordingly, claims 13-17 have been cancelled.

The following is an examiner's statement of reasons for allowance: the prior art, either singly or in combination, fails to anticipate or render obvious, the method including forming alignment reference marks by using the same materials as those of at least one of the gate electrode, the semiconductor film, and the source and drain electrodes in an area other than a formation area for the thin-film transistor at the same

time when the gate electrode, the semiconductor film and the source and drain electrodes are formed, forming red filter alignment marks comprising a red filter so as to cover the alignment marks and then performing alignment of the following step pattern based on the alignment marks below the red filter alignment marks in combination with the other limitations of claim 11.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
